SKILLS

- **Languages:** C++, JavaScript, Java, Python
- **Frameworks:** HTML, CSS, NodeJS
- **Cloud & DevOps:** AWS, Cloud Architecture, Linux, Docker,
- **Tools/Platforms:** Rocky Linux, VS Code, AWS Sandbox, Git & GitHub
- **Soft Skills:** Problem-Solving, Time Management, Data Structures & Algorithms, Adaptability

PROJECTS

- **Secure File Management system:** | [GitHub](#) Apr|2025
 - Designed and developed a secure file management application with Multi-Factor Authentication (MFA) and Role-Based Access Control (RBAC).
 - Implemented end-to-end encrypted file handling to ensure data protection and prevent unauthorized access.
 - Built and deployed a responsive, scalable system ensuring high reliability and seamless performance across devices.
 - Improved user experience through interactive UI design and efficient API-based operations.
 - **Tech:** HTML, CSS, JavaScript, API Integration
- **Flight Tracking System:** | [GitHub](#) May|2025
 - Developed a real-time flight tracking application using the Aviation Stack API to show live flight status, delays, and arrivals.
 - Implemented dynamic content updates for accurate, real-time monitoring and real-time accuracy.
 - Built a responsive UI optimized for both mobile and web platforms to ensure smooth user experience.
 - Improved UI loading performance and increased real-time reliability.
 - **Tech:** HTML, CSS, JavaScript, Aviation Stack API

TRAINING

- **Board Infinity:** | [Infinity](#) Jan|2025
 - Mastering Data Structures and Algorithms – Training Program.
 - Completed structured training on DSA concepts including arrays, linked lists, stacks, queues, trees, graphs, and dynamic programming.
 - Strengthened algorithmic thinking through optimized problem-solving techniques.
 - I gained hands-on practice in Java and logic building.

CERTIFICATES

- Cloud computing | [NPTEL](#) Jan|2025
- Introduction to Java | [Colab](#) May|2025
- Coursera: Introduction to OS | [IBM](#) Aug|2024
- Coursera: Networking | [Google](#) Sep|2024
- TCP/IP and Advanced Topics | [Colorado](#) Nov|2024
- Responsive Web Design | [FreeCodeCamp](#) Nov|2023

ACHIEVEMENTS

- **90-day LeetCode streak:** | [leetcode](#) Since October 2025
 - Solved 100+ algorithmic challenges, improving DSA and coding proficiency.
- **Adobe India Hackathon** | [Adobe](#) Aug|2025
 - Qualified and participated in Round-1 (MCQ + Coding), demonstrating strong analytical and competitive programming skills

EDUCATION

- **Lovely Professional University** Phagwara, Punjab
Bachelor of Technology - Computer Science and Engineering; **CGPA: 7.13** Aug 2023 -present
- **Sri Chaitanya college** Vijayawada, Andhra Pradesh
Intermediate; **Percentage: 92.9%** Jun 2021 - Mar 2023
- **Sri Chaitanya School** Anantapur, Andhra Pradesh
Primary Studies; **Percentage: 100%** Jun 2020 - Mar 2021
